

## A. Curriculum

The curriculum fulfils the “Curriculum Framework for Formal Education of Local Education System” as well as “the Requirements of Basic Academic Attainments of Local Education System”.

The junior secondary curriculum features in an applied technology course called “Design and Applied Technology” (DAT). It aims at providing some basic hands-on abilities learning and practices to all students for enhancing their general living skills and technical knowledge.

The senior secondary curriculum features in three major streams: Commerce, Science & Technology and Science to meet and satisfy students’ different interests and potentials. According to their interests and career plans, students at F5 and F6 levels are eligible to participate in different international examinations such as IELTS, IGCSE, IAL and LCCI. Further information on IGCSE, IAL, LCCI can be obtained at this link:

The curriculum and the number of lesson periods allocated for each subject and form level are tabulated as follows:

## B. Subject Weighting

The subject weighting serves two purposes: one is for the calculation of the average mark of each term, and the other one is for the determination of the eligibility for promotion or retention (students passing all subjects or failing up to 2 units of subjects with a grade of at least 50 are eligible to be promoted to next higher form. Those who fail between 3 - 5 units of subjects are considered to be promoted only on the condition that they have achieved a passing grade in a supplementary assessment, whereas students with more than 5 units of subjects failed are retained in the same grade level). The maximum mark is 100, and the passing mark is 60 for all the subjects, except for Moral and Civic education which is not graded numerically.

### C. Assessment

In each academic year, there are two terms of examination (summative assessment), one is scheduled before Christmas holiday, and the other one is scheduled in June. Only the core subjects are to be assessed in the term examination (as tabulated below). All other subjects not shown on the table are regarded as non-core subjects.

Core Subjects	Term Examination ( 2 Terms)									
	F1~F3	F4A	F5A	F6A	F4BC	F5BC	F6BC	F4D	F5D	F6D
English	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Chinese	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Mathematics	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
Science	✓									
Accounting		✓	✓	✓						
Economics		✓	✓	✓						
Physics					✓	✓	✓			
Chemistry					✓	✓	✓	✓	✓	✓
Biology								✓	✓	✓

Other non-core subjects are assessed by “formative assessment”. It is a combination of various tasks such as class work, homework, projects, presentations, quizzes, tests, etc. The percentage allocation of assessments is shown below:

Subject Assessment (%weights)				
Subject	TERM 1 (40%)		TERM 2 (60%)	
	Term 1 (Formative)	Term 1 Exam(Summative)	Term 2 (Formative)	Term 2 Exam(Summative)
Core Subjects	25%	15%	35%	25%
Non- Core Subjects	40%	/	60%	/

Note: \* The non-core subject, Moral and Civic Education is not graded numerically.
